

# 2021-09-9 Meeting notes

## Date

09 Sep 2021

## Attendees

- [Jill Lovato](#) [Kendall Perez](#) Sarah Beaudoin [Joe Pearson](#) Michelle Jiang [Jason Shepherd](#)

## Notes

- Overview of 3 month pipeline
- Looking for project content to publish on LF Edge blog; ask that folks identify noteworthy blog posts from project wikis
- ONE Summit Update:
  - Event is now 100% virtual
  - LF Edge has two kiosks:
    - CONFIRMED - ICN Akraino BP. Ask was made to include the other 1-2 Akraino BPs that integrate with the 5G Super Blueprint into ONE single kiosk
    - Proposed: ORRA, Alvarium - cue trust fabric and cross-project integration
      - possibly as third option if there is more space in the digital format
  - Each kiosk / demo should record no more than 5 short videos, with slideware and voiceover (GUIs, diagrams)
  - Demo stations to be "staffed" during booth hours; demo managers need to be available online to answer questions and engage attendees
  - Demos will be available for on-demand viewing after the event
  - Webinar option: Can turn demo content into a co-branded LFN / LF Edge webinar in Q4. (Suggest Akraino do a separate R5 webinar ahead of ONE Summit)
- ASK: Outreach Committee's help in updating/scrubbing the master LF Edge pitch deck
  - Link to view current content (start at slide 48): [https://docs.google.com/presentation/d/1susX\\_cMxsomAI\\_oZ5l1UN7liub6ftnXnVPhIkMk27mE/edit?usp=sharing](https://docs.google.com/presentation/d/1susX_cMxsomAI_oZ5l1UN7liub6ftnXnVPhIkMk27mE/edit?usp=sharing)
  - [Jill Lovato](#) to provide more granular details on which specific slides the group should help with
- ASK: Outreach Committee's help in updating the Taxonomy white paper. Begin work in Q4 2021 with goal of Spring 2022 publish date.
  - Updates should focus on shift to maturity with a data/apps lens
