Meetings and Goals

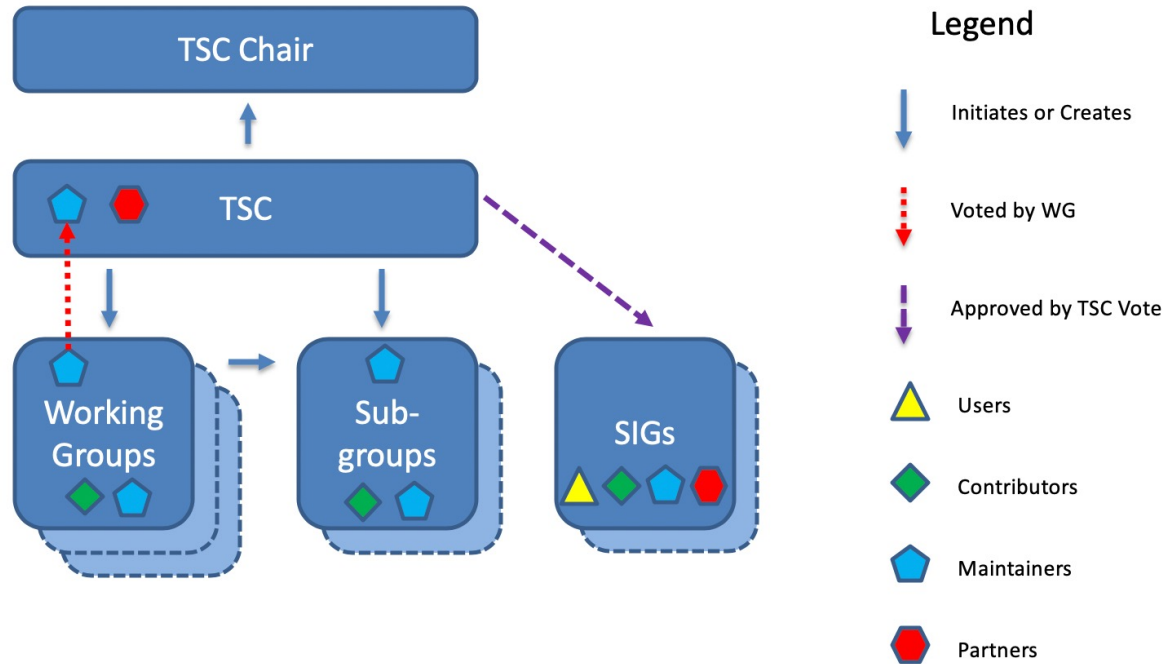

- Depending on what you want to work on, you may have a different mentor for that specific work
- You'll meet personally with your mentor at an agreed-to cadence for that effort
- You'll want to attend your Working Group (or SIG) meetings and participate there and in the relevant chat rooms
 - You may also need to attend other relevant WG meetings if applicable
- Your mentor will collect your goals for this term or the effort if it is shorter
 - We may want to publish them on [the wiki](#)
 - The goals are aspirational and might not be completed in the term
