LF Edge meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at LF Edge meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at http://www.linuxfoundation.org/antitrust-policy. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Updegrove LLP, which provides legal counsel to the Linux Foundation.

Topics

1. Collaboration Areas
2. Action Items
3. AoB
4. Adjourn
Collaboration Areas

1. **Eve**:
   
   Read through the documentation of Eve and feasibility of adopting the same with Home Edge. Have discussed with eve team on the same. Based on the type of hypervisor adopted in Even, further decisions would be taken.

2. **EdgeX Foundry**:
   
   Further to the discussions at IoT SWC at Barcelona. It was decided to kickstart the collaboration with Data Storage module of EdgeX foundry. We have read through the design of EdgeX foundry and role of Data storage module. We have scheduled a discussion with JIM White from EdgeX on the same line.

3. **NN Framework**:
   
   Have built the NN framework for x86_64 bit architecture. Tested the framework capability with Mobilenet V2 and Inception V3 tensorflow models.
