

Mgmt Hub WG Minutes

August 13 Minutes:

Agenda - Logistics, Overview, Q&A, how to get involved

BP: Let WG know if a different meeting time would be better

BP: Overview of component focusing on Mgmt Hub components

BP: Visit Quick Start and start contributing

DCM: Would like to see how OH fits within the other LF Edge projects

DCM: What are the supported architectures for the Mgmt. Hub?

BP: Just x86_64, we can discuss requirements for other architectures, not a short discussion

Joe:

- Present how OH fits within other LF Edge projects
 - <https://lfedge.slack.com/archives/C0173QQTAAZ/p1597334168007800>

DCM:

- Provide context in Wiki/etc.. for WG relationship to other OH and LFE WG efforts
 - <https://lfedge.slack.com/archives/C0173QQTAAZ/p1597327261001200>
- Stop calling ESS a Model Management Service and identify MMS as component-to-be
 - Proposing adding first-class support for a model object
 - Proposing that we re-name MMS after its actual function
- Define architectural support for management hub (i.e. we call agree amd64 is sufficient or we decide if additional architectures, and which, are needed)
 - <https://lfedge.slack.com/archives/C0173QQTAAZ/p1597328172003100>
