LF Antitrust policy notice

Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrave of the firm of Gesmer Updegrave LLP, which provides legal counsel to the Linux Foundation.

Topics

1. Current issue status
2. Documentation migration status
 - › Mermaid-generated charts **FINAL** update
3. Documentation for Open Horizon Feature Addition
4. Next meeting

Current issue status

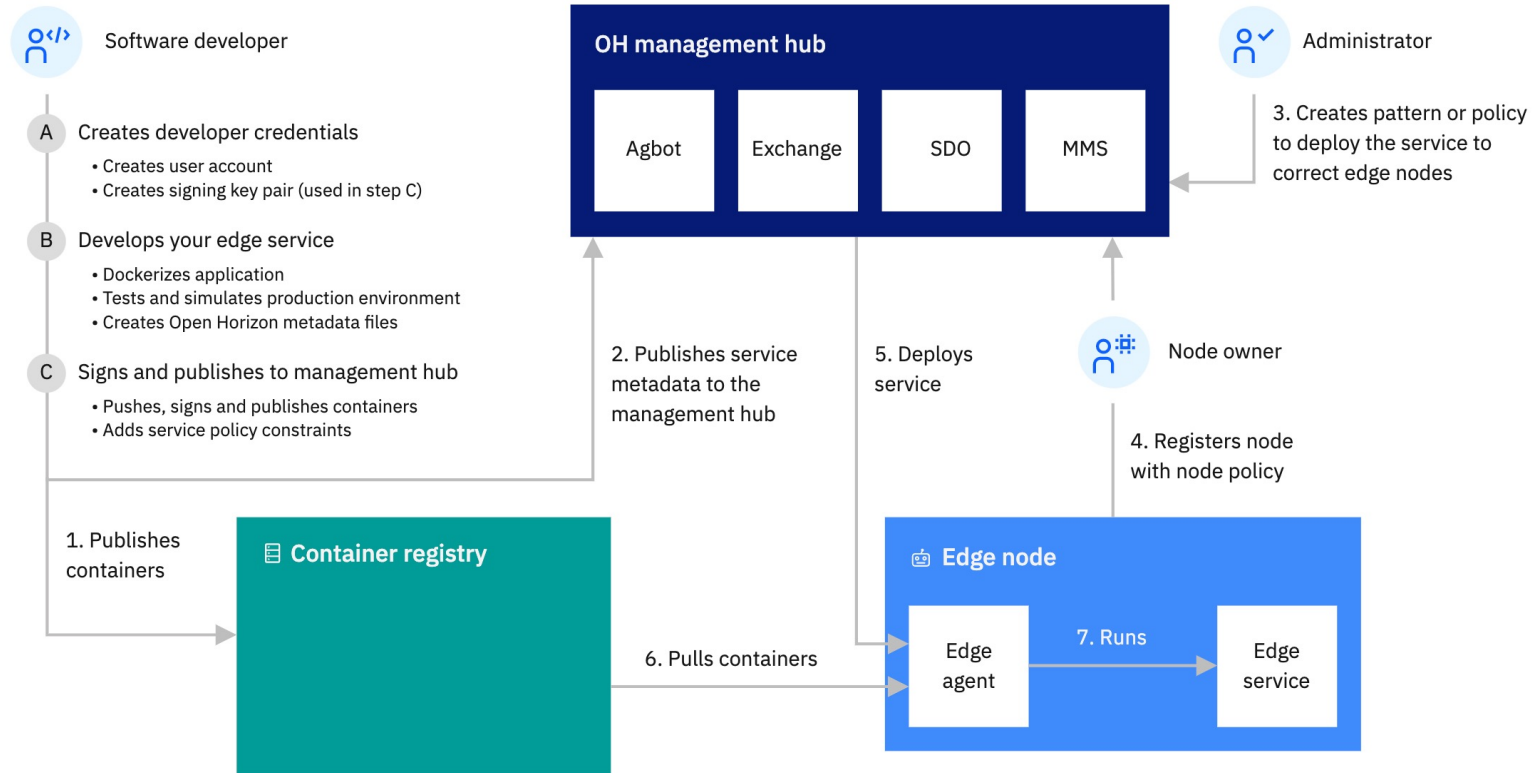

Repo	open-horizon.github.io
New Issues	2 (-1)
Backlog	3 (+1)
In Progress	2 (+1)
Completed	25

Documentation migration status

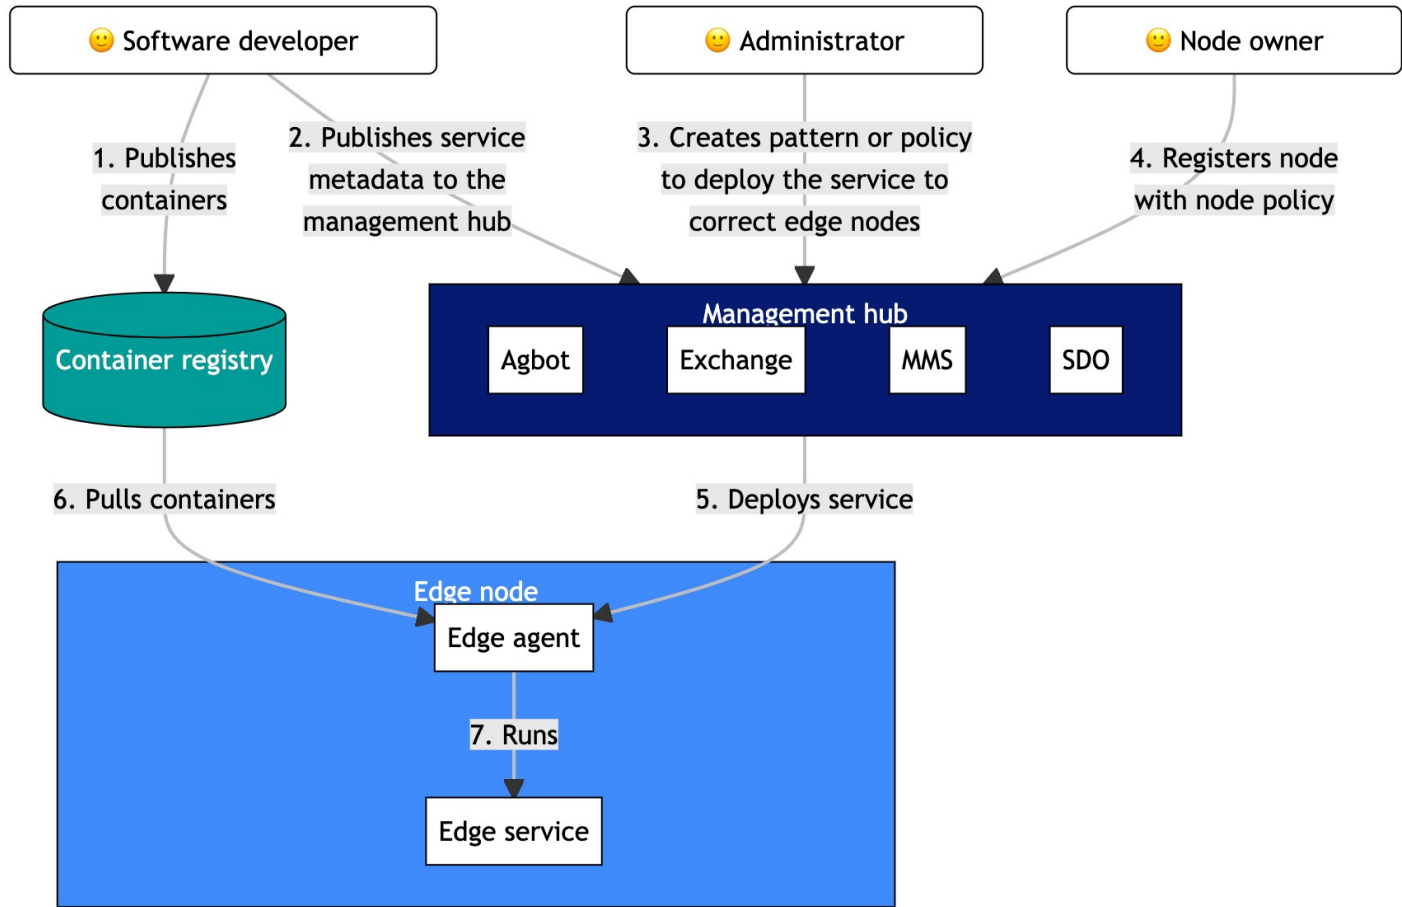

Issues:

- › Ongoing - maintain list of missing items to address at a later point, should open as GitHub issues
[Issue 67](#): Explore using Mermaid to generate charts – **Bruce Potter requested trying chart with numbered steps**
[Issue 54](#): Enhance Swagger JSON files with JS template – next
- › Process to crawl files, seed list. Confirm no orphan pages, no bad links, valid markup

Original Chart

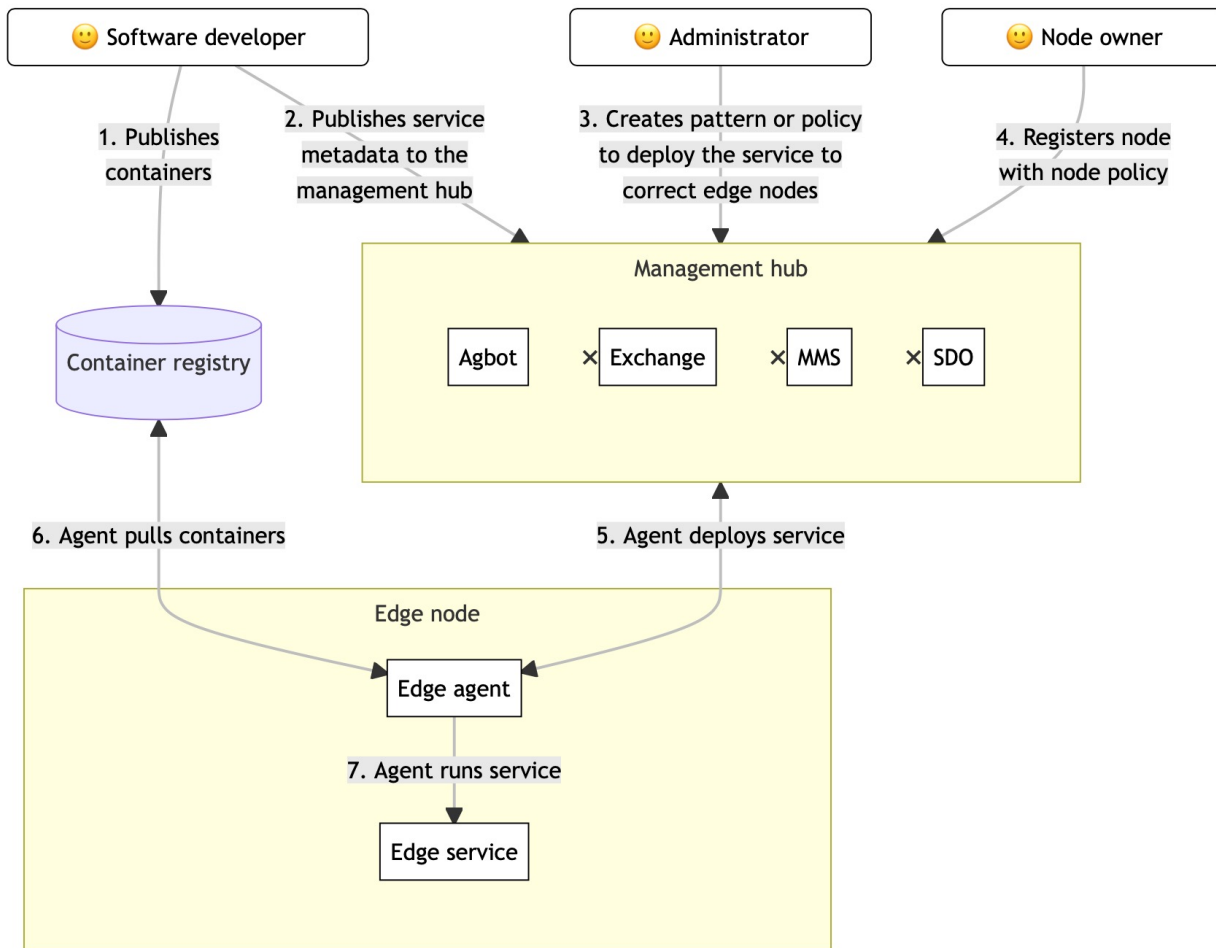

Mermaid Chart

Updated Chart

Goals:

1. Arrow variations
2. Change box colors
3. Box label padding
4. Font-awesome icons
5. Edge node box width
6. Arrow directions
7. Dot templates?

Secrets Manager (Hashicorp Vault) Feature Addition

This is the first new feature addition for the project since we started docs.

- › Scope of change
 - › API and CLI changes - [#2473](#)
 - › Swagger additions - [#2529](#)
 - › New example will be created
- › DISCUSS: What else should we do? (video demo, how-to article, in-depth interview to discuss feature)
- › DISCUSS: What approach do we take for downstream consumers?
 - › Update all docs and provide links, descriptions, URLs, ancillary materials? (assumes they will either link back to OH docs or re-create in their domain as needed)
 - › Question: Does this require the repository-embedded docs to be functioning?
 - › Side note: How do we notify of the update? Is this a new (point) release?

Next Meeting

Next Meeting

- › Next Meeting: Tuesday, July 13 @ 6am PT/9am ET

Thank You

Backup

Integrate in-place repository .md files

- › [Issue 29](#)
 - › Repositories must move files to \docs folder
 - › Then turn on github-pages for that repo as sub-folder of main doc site
 - › Then find a way to “symlink” the _config.yml and _folders from main doc site
Lines of investigation include:
 - › Git Submodules
 - › Git Subtrees
 - › ???
 - › Avoiding hard-coding separate copies in each repository
