LF Antitrust Policy Notice

Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at http://www.linuxfoundation.org/antitrust-policy. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Updegrove LLP, which provides legal counsel to the Linux Foundation.

LF EDGE

Decisions

Report from Agent WG on mimik code contribution

› Jeff Lu demo'd mimik's integration of Open Horizon with edgeEngine
  › Allows deployment of services and models to edge nodes w/o Docker runtime
  › Does not require modifications to Management Hub components
  › Does not require modifications to Service Definitions or Deployment Policies
  › Requires installation of integration code and edgeEngine components on both:
    › Edge Node containing at least two containerized Agents: node and target device
    › Target Device containing edgeEngine
  › Integrated devices registered by, and deployable to, just like any edge node

› Proposed contribution is one repo (oh-orchestrator) and ongoing upkeep

› Does this contribution qualify mimik for project Partner status?

Partners – Non-maintainer persons or organizations that have materially contributed to the project and are thus stakeholders in the project deliverables.
