LF Antitrust Policy Notice

Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrave of the firm of Gesmer Updegrave LLP, which provides legal counsel to the Linux Foundation.

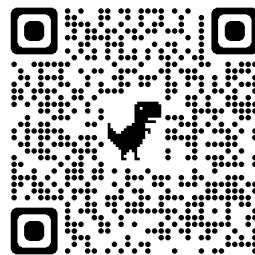

Agenda

- 5 min – Welcome new attendees!
- 5 min – Team: Updates
- 10 min – Open issues: @Alex Scheel [#20](#),
- 5 min – Do we want to form any sub-teams to coordinate work?
 - Management Hub Working Group will be meeting immediately after this
- 5 min – Open: Spread the word and invite other stakeholder participants

Updates

- Article published in [The Register](#)
 - Over 2,400 clicks on shortcut URL
 - Over 8 signups to mailing list
 - At least four new volunteers
- Trying to hit five adopters threshold
- Article published in [TechTarget](#)
- New artwork repo created, icon updated
- [Software Freedom Law Center](#) is available to consult with us next Thursday between 8-11am ET
- Let's nail down COMMITTERS teams:
"Do you know who will be on the teams defined in the COMMITTERS file? Should I just create them for now, and wait for users to be defined down the road?"

- Open Networking and Edge Summit 2024 [CFPs open](#) until December 17.
Who would like to volunteer to submit?

Open issues

@Alex Scheel - Issue #20

“One of the things that's been on my mind is in addition to trimming user-visible plugins (perhaps, depending on community involvement), we might want to trim down storage backends. HashiCorp only supports Consul + Raft, but there's many random storage backends (S3, Postgres, etcd,) that makes community maintenance and feature development hard if looking for parity across all.”

Next Meeting ...

- ? December 21, 2023 – potential mtg w/ legal counsel
- ? December 28, 2023
- ? January 4, 2024

Back Matter

Proposed Roles

- (1) Project Manager – runs meetings, compiles agenda, speaks for the project, temporary role until TSC seated and elects Chair
- (1) Product Manager – fields and validates feature requests, works with feature sponsor user(s), ensures issues created for vulnerabilities, compiles feature roadmap, fields security requests
- (2) Documentation – ensures features are documented, documentation site created and consistent
- (2) DevOps – builds and maintains automation and release artifacts
- (4) Developer – works on code issues: bugs and features, keeps documentation in sync with code changes

Proposed Mission Statement

Here is a first draft. Feedback and improvements welcomed.

OpenBao exists to maintain and improve a software solution to manage, store, and distribute sensitive data including secrets, certificates, and keys. The OpenBao community will provide this software under an OSI-approved open-source license, led by a community run under open governance principles.
