

Meeting Agenda - 2021-04-27

Meeting Agenda for 27 Apr 2021

Antitrust Disclaimer

LF Antitrust policy notice

- › Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.
- › Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrave of the firm of Gesmer Updegrave LLP, which provides legal counsel to the Linux Foundation.

THE LINUX FOUNDATION

LF EDGE

Attendance

Attendance is taken purely upon #info in Zoom Chat

Attendee	Company/Org
Ben Courliss	IBM
Mustafa Al-tekreeti	LFX Mentee
Carl Girouard	IBM
David C. Martin	
John Walicki	IBM
Edidiong Etuk	

Time (mins)	Agenda Items	Presented By	Presos/Notes/Links/
2	Welcome	Ben Courliss	
15	Review Issues	Ben Courliss	
10	Updates on integration with LF-Edge Jenkins	Ben Courliss & Mustafa Al-tekreeti	
Open	Q/A and Wrap up	Anyone	

Meeting Notes/Action Items

- Discussed need to have issues list prioritized. Unable to do so due to missing attendees.
- Discussed [Issue #57](#) around versioning the Anax Docker images and uploading into Dockerhub. Currently need to have a holistic view of the build process for all of OpenHorizon and not just Anax. Need to determine build cadence, versioning strategy, build quality gates, and upload cadence into Dockerhub.
- Reviewed current progress on integrating LF-Edge Jenkins into the build process. Summarized as an inefficient process due to not having sufficient documentation or support from the LF-Edge DevOps engineer. Unclear as to whether the LF-Edge Jenkins environment is a viable solution when GitHub Actions works much better.
