

Meeting Agenda - 2021-07-20

Meeting Agenda for 20 Jul 2021

Antitrust Disclaimer

LF Antitrust policy notice

- › Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.
- › Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Updegrove LLP, which provides legal counsel to the Linux Foundation.

THE LINUX FOUNDATION

LF EDGE

Attendance

Attendance is taken purely upon #info in Zoom Chat

Attendee	Company/Org
Ben Courliss	IBM

Time (mins)	Agenda Items	Presented By	Presos/Notes/Links/
2	Welcome	Ben Courliss	
	Discuss recent GitHub Actions added	Ben Courliss	<ul style="list-style-type: none">• Examples• MMS Cloud Container• Anax
Open	Q/A and Wrap up	Anyone	

Meeting Notes

- <https://github.com/open-horizon-services> is a new repo for example services. Probably need to create GitHub Actions for them
- Add a top level examples Makefile that has a test target so that we can control what gets tested in the Makefile, vs having that logic in the GitHub Action.
- Ben Courliss Attend the next Examples WG meeting
- Add additional check for mms-cloud-container action to test the version. Also see if we can export some e2edev tests to mms-cloud-container in order to validate functionality. Create issue <https://github.com/open-horizon/mms-cloud-container/issues>
- Need mms-edge-container and take from Anax build. Should create an edge-sync-service

- Check if there is a GitHub Action timeout (only noticed during the weekend)
- When are we moving the build out of internal IBM infra into LFEEdge/GitHub infra?
 - Need a roadmap of when we can move release builds into opensource
- Documentation WG wants to run a validator (Jekyll, etc) to test doc generation

Open Action Items

- ☐ Build process discussion for OpenHorizon Artifacts. Need holistic view of process documented and issues created in order to make progress.
