

Contribute to Project EVE

EVE community shares the spirit of the [Apache Way](#) and believes in "Community over Code". We welcome any and all types of contributions that benefit the community at large, not just code contributions:

- **Providing user & testing feedback:** [Contact us](#) via our mail lists or Slack channels.
- **Evangelize or collaborate with related products and technologies:** Be sure to tell us what you are up to, and share any links from outside this project.
- **Editing this wiki:** You can create an account if you don't already have one.
- **Improving documentation:** Make a pull request on [our repository](#). Still lots of work to do here. We're authoring in Markdown for now.
- **Add or improve hardware support:** View our list of [supported hardware platforms](#). Pull requests are welcome. Be sure to contact the committers first for guidance.
- **Contribute test scenarios and test code**
- **Add new features:** Pull requests are welcome. Be sure to contact the committers first to discuss your ideas.
