

# Meeting Agenda - 2021-08-17

Meeting Agenda for 20 Jul 2021

## Antitrust Disclaimer

### LF Antitrust policy notice

- › Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.
- › Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Updegrove LLP, which provides legal counsel to the Linux Foundation.

## Attendance

Attendance is taken purely upon #info in Zoom Chat

Attendee	Company/Org
Ben Courliss	IBM

Time (mins)	Agenda Items	Presented By	Presos/Notes/Links/
2	Welcome	Ben Courliss	
	Attended OpenHorizon Examples working group to present GitHub Action that was created.	Ben Courliss	<ul style="list-style-type: none"><li>• Asked to start looking at helping create a GitHub action for OpenHorizon Services HelloWorld</li></ul>
	Discussion on circular dependency in current build pipeline. Should lead into discussion on how to export the current build process as GitHub Actions	Ben Courliss	<ul style="list-style-type: none"><li>• <a href="#">Open Horizon Build Pipeline</a></li></ul>
	Discussion on removing CSS build from Anax and move to mms-cloud-container. What happens to ESS?		
Open	Q/A and Wrap up	Anyone	

## Meeting Notes

- Have e2edev tests run against a remote all-in-one env

- Move nightly build pipelines into GitHub Actions and create a *nightly* tag that is used in all-in-one env
- Should mgmt hub be on Docker Compose vs MicroK8s?
  - Sounds like both are needed
  - Could be a separate repo that supports MicroK8s (contains the yamls/deployment specs, etc)
  - Potentially move e2edev tests out of Anax and into the all-in-one repo
- [Ben Courliss](#) - Need to create issues
- Will need to create a mms-edge-container repo.
- Tags for Examples repos. When we do a weekly release, we need to tag Examples repo as well.
  - post-install of operator should publish the tagged examples

## Open Action Items

- ☐ Build process discussion for OpenHorizon Artifacts. Need holistic view of process documented and issues created in order to make progress.
