

# Meetup and Event Resources

## Upcoming Events

A list of upcoming events that LF Edge will be participating in can be found at <https://www.lfedge.org/events/>

## LF Edge Meetups/Events: Available Support

The LF Edge community is growing quickly, including our meetups across the globe. This page serves as a guide for those who are interested in starting, or presenting LF Edge (including LF Edge Projects), at a local meetup. We'll work to build this out with the community over time. We strongly encourage and support the community in presenting LF Edge. Below please find currently available resources/templates:

### Where to Present

- While the community is certainly welcome to start up new LF Edge meetup groups, we might recommend leveraging existing IoT Meetups
  - Search <https://www.meetup.com/topics/internet-of-things/> for groups near you
  - Contact the Meetup Organizer and offer to present on LF Edge

### LF Edge Sponsorship

- LF Edge will fund/sponsor the talk in which LF Edge (and/or a hosted LF Edge Project) is scheduled to be presented
  - Up to \$250 for F&B, once per Meetup group, per quarter
  - Submit receipt/s to [meetups@lfedge.org](mailto:meetups@lfedge.org), along with URL of the Meetup event (showing LF Edge as a featured topic), and completed [reimbursement form](#)

### Meetup Marketing & Promotion

- Let us help drive traffic to your event! Email [pr@lfedge.org](mailto:pr@lfedge.org) once Meetup has been scheduled
- Post-event, please consider doing a blog about the event
  - Example: <https://www.edgexfoundry.org/blog/2018/07/12/spreading-edgex-foundry-news-in-asia/>

### Content

- An LF Edge Overview Deck and Getting Involved Guide are available under the Resources menu on <https://www.lfedge.org/>
  - If you need a Google Slides/PPT version of either, please email [meetups@lfedge.org](mailto:meetups@lfedge.org)
- Additional Resources/Templates (including individual project overview decks) are available on the Wiki under [Project Resources / Templates](#)
- We encourage groups to post Past Presentation Decks below (photos optional) for the Community to leverage
- If you videotape your Meetup presentation, please share it with [pr@lfedge.org](mailto:pr@lfedge.org) so that we may consider for addition to an upcoming LF Edge YouTube channel

### Suggestions

- We certainly welcome additions/edits/feedback to this page as best practices are learned from the Community

### Questions

- If you have any questions, please feel free to email [meetups@lfedge.org](mailto:meetups@lfedge.org)

## Past Meetups

The list below shows a sample of the community footprint. While we encourage groups to post photos/presentations post-Meetup, not all make it here.

**>> WE ENCOURAGE COMMUNITY MEMBERS TO ADD YOURS BELOW**
