Attendees

Bruce Potter	John Easterday	John Kuriakose	Chanda B
Randall F Templeton	Mary Abraham	Tushar Behera	Benny Davis
Vasavi Vasudevan	Sven Uthe	Lorenzo King (Bruce)	

Goals

- Integration issues with FDO 1.1
- Plan for FDO 1.1
- Improving community engagement

Discussion items

Sl No	Item	Notes
1	Opens / updates	- Update Meeting Goals and Objectives - Should we keep this meeting or consolidate with Thursday? - Lorenzo - would like to keep it, likes to ask code related, deeper technical questions - Vasavi - recommends consolidation as its mostly the same audience - Benny - recommends consolidation - Discuss this further in the Thursday and decide if a vote is needed - Update the discussion items below and add new items
2	Integration issues with FDO 1.1	- IBM is working on moving to FDO 1.1 - Integrated with the Demo environment - Target production ready by end of Q4, 2022 - Target Production release will be in Q1, 2023 - Randy working on setting up an RV server in LF Edge lab (sdo.lfedge.iol.unh.edu (80/443) - Done & works
3	Features for FDO 1.1.3 Scheduled for end of Sept 2022	- MTLS - Smaller image for PRI services - X5 chain - Move from H2 to Maria DB - Ubuntu 2204 support - Loading key store from file system
4	Steps to improve community engagement	- Visiting colleges, talking to professors for interest - Respond to interests and questions on slack - Encourage interested people to attend the LF Edge FDO/SDO meetings - Reach out to other open source projects like Gramine, SGX

Action items

- [x] Tushar to provide information about FIDO Alliance Hackathon (to sort out inter operability issues)
- [ ] Vasavi to provide updates about short-term/long-term roadmap for FDO
- [x] Randy to check on the feasibility of not using CBOR encoded format always and use CBO diagnostics
