

# Add New Application Requests Below

To add a new application request form, you will be creating a new Page.

1. In the upper right of the [LF Edge Wiki](#), make sure you are logged in. If you need to create a LF ID, you may do so at <https://identity.linuxfoundation.org/>
2. In the upper toolbar, in blue, click the 3 dots next to the "create" button and scroll down until you find "Application Request Form - LF Edge Sandbox", click "create"
3. For the Page title, use the name of the application
4. For the content, include information requested in the Sample Template
5. Select Publish and you should find the new page created below the LF Edge Sandbox tab
6. Email [TAC@lists.lfedge.org](mailto:TAC@lists.lfedge.org) notifying the TAC of your new request form, including a link in your email to the Wiki page with your proposal
