

# 2024-03-27 Meeting notes for Documentation Working Group

## LF Antitrust Policy Notice

Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrave of the firm of Gesmer Updegrave LLP, which provides legal counsel to the Linux Foundation.

## Date

27 Mar 2024

## Discussion items

- [ONE Summit demos](#)
  - Document each demo individually
  - Collect all materials: Video, Slides, Scripts
  - Ensure code is available, tested, and can be replicated by any developer
  - Collect analytics so we can track usage, including any shortcut URLs
  - Handouts at booths
- Install script updated to add support for arm64 cluster agent
  - Confirm all documentation reflects this, beginning in `anax` repo
- How do we document, explain, distinguish between 2.30 and 2.31 branch functionality?
  - Is this specific to Open Horizon or does it affect downstream distributions as well?
  - Is this documented anywhere?
  - How do we indicate which agents work with which versions of the Hub?

## Action items

- ☐ Additional prototyping of Docusaurus, check how it generates and supports links
